The Faculty of Economics and Management invites applications for a

**Tenure Track University Professorship (Salary Scale W2 NBesO with tenure track leading to W3 NBesO) for Health Economics**

starting April 1, 2020. The initial appointment will be for 5 years. After positive evaluation, the candidate will receive a tenured professorship on the salary scale W3.

The job announcement is part of the Joint Federal Government-Länder Tenure-Track Programme to promote junior researchers. It is aimed at young researchers with outstanding potential for a successful academic career.

The School of Economics and Management is home to the prestigious Center for Health Economics Research (CHERH). We are seeking to appoint a Professor of Health Economics who has the potential in raising research funds and to apply for highly ranked research programs. The successful applicant shows a strong record of research with publications in leading journals of the field.

The successful candidate will teach in the School’s Bachelor/Master Degree Program in the area of economics and business administration with a focus on health economics and health care management. He or she will also contribute to the Ph.D. training program.

The successful candidate is expected to cooperate with the colleagues in the School and in the Hannover Medical School (MHH). Such a collaboration is particularly requested in the CHERH and in the areas Normativity in Science and Society and Health and Education of the cooperation of the Leibniz Universität Hannover and the MHH. She or he will also contribute to one of the School’s research focus groups. Furthermore the successful candidate should be interested in ethical topics in both teaching and research.

The successful candidate will be expected to hold selected courses in English.

General responsibilities and conditions of appointment apply, in accordance with the Lower Saxony Higher Education Act (Niedersächsisches Hochschulgesetz - NHG). Details will be provided upon request.

Part time employment can be arranged on request.

As an equal opportunities employer, Leibniz University Hannover has set itself the strategic aim of significantly increasing the proportion of women. Female scientists are therefore particularly encouraged to apply. Applications from abroad are especially welcome. Preference will be given to equally qualified candidates with disabilities.

In its mission statement, Leibniz University Hannover attaches great importance to the international orientation of teaching and research. At the same time, it places significant value on the intensive guidance and support of its students and on the university’s close ties to the region and to Lower Saxony. Its professors are thus expected to be based in the Hannover Region.

Further information is available from Prof. Dr. Kay Blaufus (blaufus@steuern.uni-hannover.de).

Please submit your full application until October 10th, 2019 via the Appointment Portal of the Leibniz Universität Hannover at [https://berufungen.uni-hannover.de](https://berufungen.uni-hannover.de).
