

You'll also benefit from a cultural programme that includes **networking events** to meet with fellow summer school students. We've designed the teaching schedule to give you the chance to explore **St.Petersburg**, and those nearby, at weekends.

#### Cultural program

Field trip to the **Stock Exchange St. Petersburg** and Money history museum; **Boat city tour**; Excursion to the **Hermitage**; Visit to Hyundai/Nissan Motor Manufacturing; Excursion to **Peterhof** palace-ensemble with picturesque gardens (optional, for extra price); Picnic at the seashore of the **Gulf of Finland** (optional, for extra price); Trip to "Heineken" Brewery (optional, for extra price)

#### Deadline for registration:

Early bird deadline: April 20, 2020

Regular deadline:

- for non-EU citizens:

May 11, 2020

- for EU and visa-free countries' citizens:

June 01, 2020.

## Quantitative Finance JULY 27 - AUGUST 07, 2020

**Do you manage money or money manage you?  
Choice the right side and join to our summer school!**

The summer school "Quantitative Finance" is your chance to study **modern technologies** used in **finance**. The program is cut out for international students whose major is finance, economics and business.

The theoretical block is called "**Portfolio Theory and Asset Management**" and implemented by professors from **City, University of London**, one of the leading universities in Europe. Having mastered this module, you will gain invaluable insights into key business and finance knowledge and skills.

The practical block is offered to choose from **Matlab programming for finance** or **modeling in Stata software package**. This block is implemented by professors from **City, University of London** and **SPbPU**. Interactive training methods, field trips and group discussions are used to activate students' involvement.

**For successful mastery of the practical block, students do not need special skills in MatLab programming or Stata modeling.**
